

THE FAYETTE FALCON.

ESTABLISHED 1866.

SOMERVILLE, TENNESSEE, FRIDAY, OCTOBER 28, 1921.

NEW SERIES: VOL. XV.—NO. 18

In Memory of Mrs. J. J. Steger

Mrs. Elizabeth Parrish Steger, was the beloved wife of the late J. J. Steger of Moscow, Tenn. She was born at "Oakwood Plantation" in Fayette County Tenn., January 15, 1858.

While Mrs. Steger had not been enjoying the best of health for several months, no one realized the seriousness of her condition for it was so characteristic of her to solicit for the welfare of others neglecting to let them know of her own, and her sudden death at her home September 14, 1921, came as a great shock to her family and great host of friends.

She was married to Mr. J. J. Steger November 26, 1879, Roseville, Tennessee. This union was blessed by three sons, Virginious, Parrish and Hugh, and they with her stepson Jno. Steger, survive to call her blessed for she was indeed a wonderful mother, justly proud of her four excellent sons all of whom were with her at the last. Mrs. Steger was so kind, so generous and so thoughtful of others that she will be greatly missed, Faithful and true to all.

The church and its institutions has also sustained a great loss. She was one of the most cultured, refined and highly educated ladies of the south having graduated from a college in Patapsco, Maryland, when but sixteen, she was valedictorian of her class, and her graduation theme was written in French, besides being a great lover of classics she was one of the best informed on history and current events, for there are few anywhere who read more extensively than did she.

So sweet, so pure, so true, during her life she strewed flowers constantly. It grieves us to know she has gone from us, but we know she has gone to a mansion not made with hands, eternal in the Heavens.

She was preceded by her husband to that "Blessed Land of Rest" by only four months.

There is no death!
The leaves may fall,
And flowers may fade
And pass away.
They only wait through winter hours,
The coming of the May.

There is no death!
An Angel from—
Walk o'er the earth in silent tread!
He bears our best loved things away!
And then we call them "dead."

And ever near us, though unseen,
The dear immortal spirits tread,
For all the boundless universe,
Is life—There are no dead.

The body rests peacefully in the
Friendship Cemetery near Moscow,
Tennessee.

WOMAN'S MISSIONARY SOCIETY

Literary Society Moscow

The Ladies Literary Society met October 22, in the home of Mrs. Leo Wright. In the elegantly appointed room, progressive work was the delight of each guest for an hour, after which members were drawn for the new books.

Mrs. Wright assisted by Mrs. C. H. Rich and daughter, Charline, served in their most charming manner, dainty refreshments. CORRESPONDING SEC.

CLOGGED BLOOD WITHERS THE BODY

Workers Sick and Weak from Exertion Take Gude's Pepto-Mangan

Men and women who toil, either physically or mentally, use up energy. When they overwork they use up more energy, and sometimes the blood gets in a run-down condition. Without rest the blood cannot get back to normal, so it becomes clogged with waste matter from over exertion.

The clogged blood virtually withers the body. The strained looks on pale faces, the thin bloodless arms, the sunken cheeks and necks, the dead tired feeling, are the results of stale blood depriving the system of life giving oxygen.

Workers go the drug store and get Gude's Pepto-Mangan when they feel weak and run down. They take it in either the liquid or the tablet form. That makes the blood rich and red and drives out the poisons. Life giving oxygen carried by little red cells, renews the strength and builds up the entire system. Look for the name "Gude's Pepto-Mangan" on the package.

Fairview Notes

These glorious October days make us glad. One day last week the teacher and children decided to go scalypark hunting for the weather was too fine to stay indoors or to follow ordinary pursuits. There had been a stiff little wind from the north and great flocks of wild geese had been seen winging their ways to the warmer climes. There was just enough hint of Jack Frost in the air to make our blood tingle. And then too we knew where a number of scaly trees were and we were sure that the ground would be covered with rich brown nuts. So with one accord we set off at noon. The boys ran wildly ahead playing "Hare and Hound" while the girls went skipping along laughing and singing snatches of the "Bonnie Blue Flag." Even the teacher forgot his dignity and became one of us. An hour later we all returned, not empty handed. Each had a nice bay of nuts. After we rested a while we were ready for a good afternoon's work. We felt that it was great just to be alive.

The pupils are doing tee janitors work cooperatively. We take turns at sweeping and are using our money thus earned for our own good. All ready, we have bought a new pencil sharpener and have subscribed for a number of magazines. Among these we have the "Youth's Companion," "Girlhood and Boyhood Days."

We mean to buy more magazines, etc., if our funds will justify. We hope to add some books to our library. Then, too, these magazines, when they have been read, will be filed away to be read over again. Our teacher says we must read and read and read.

We are to bring up a composition next week entitled "How I hope to spend my next four years." We have not been accustomed to writing compositions but I feel sure that if we take pains with it we will succeed in writing a very good one.

Craddock Book Club

On Tuesday afternoon October 25th the Craddock Book Club was delightfully entertained by Mrs. J. M. Reams in her beautiful country home. As the guests arrived they were invited into the dining room where delicious sandwiches and tea were served by Misses Pauline and Bernice Lipsky. The color scheme of pink and green was tastefully carried out in all decorations. Rook and 500 were enjoyed throughout the afternoon. Those lucky in cards were Mrs. H. L. Armstrong and Mrs. E. A. Maddox, each receiving a handsome cut glass vase. Mrs. Harry Mathis and Mrs. F. L. Blacklock each received a booby, a little gold fish.

The score cards were a pink rose bud with a part of a mother Goose rhyme hidden within the center. For each game won a pink bud was given. While the games were in progress delicious punch was served by the hostess.

After the books were distributed the meeting adjourned to meet November 8th at 2:30 o'clock with the Misses Lipsky.

Joyner's Camp Meeting 1922

Rev. Patrick Henry Davis, of Louisville, Kentucky, has been secured to hold the Camp Meeting at Joyner's next year.

"Pat" Davis is one of the most popular as well as one of the most successful evangelists in the Southern Methodist church.

The meeting will begin on Saturday night, August 5th 1922.

Wormy children are unhappy, puny and sickly. They can't be otherwise while worms eat away their strength and vitality. A few doses of WHITE'S CREAM VERMIFUGE performs a marvelous transformation. Cheerfulness, strength and the rosy bloom of health speedily return. Sold by Cartmell-Gillmann Drug Co. adv.

Woodlawn Woman Reaches Age of Ninety-Six Years

WOODLAWN Ill., Oct. 16.—Mrs. Nancy C. Hicks is quietly celebrating her ninety-sixth birthday at her home. A number of relatives and friends have called to pay their respects to this fine old lady who has reached the 96th milestone of her life.

"Auntie" Hicks as she is lovingly called by both young and old, has endeared herself to all who know her.

She was born in Robinson county, Tennessee, in 1825 and in 1884 was married to Franklin R. Gooch, a Methodist preacher, two children were born, one dying in infancy, the other at the age of 16.

Her husband died in 1861, and about fifty years ago Mrs. Hicks came to this state where she has since resided.

In 1880, she was married to Isaac Hicks, a pioneer resident of this county. They lived for a number of years on a farm then came to Woodlawn her present home.

Mr. Hicks died in 1898. Mrs. Hicks has always lived alone since Mr. Hicks' death, with the exception at times some relative or friend spend a few weeks with her.

Mrs. Hicks enjoys fairly good health. Her mental faculties are clear, her hearing is somewhat impaired. For one of advanced age she is remarkably spry. She is a great reader and takes a keen interest in the current topics of day. She does all her own housework and her house is a model of neatness. She likes having her friends come in for a visit and her delight is shown in that true southern hospitality, with which she is endowed.

With the exception of several nieces and nephews Mrs. Hicks has no relatives living so it is only fitting she became everybody's "Auntie" Hicks.

She is a sister of Mrs. Lucinda Henley, who was the mother of E. T. Henley and Mrs. F. W. Day of this city, and Mrs. H. B. Malone of Whiteville, and M. R. Henley of Memphis.

Rothrock-Buford

A wedding which will be of interest to many friends occurred on Tuesday evening when Miss Connie Buford, daughter of Mrs. Louise Barry Buford, became the bride of Mr. William Heron Rothrock of Shelby, Miss., the Rev. J. T. Rothrock officiating.

The bride was attired in a suit of dark blue duvetyne with a hat to match and her flowers were bride roses and valley lillies. She was attended by Miss Lucille Dean as maid of honor, who wore a model of blue velvet, while the bridesmaid, Miss Ada Raine, wore blue crepe with fur trimmings. Judge J. T. Rothrock of Jackson, Tenn., served his brother as best man, and Mr. C. P. Buford of Roanoke, Va., Mr. B. N. Buford and T. F. Raine as groomsmen. Immediately following the ceremony Mr. and Mrs. Rothrock left for New Orleans and upon their return will be at home in Shelby.—Commercial Appeal

Goes into Dairying Right

Robert B. Johnston, county agent, Roane County, has sent in an interesting account of a new dairy farm started in that county. Beecher Hembree, a farmer near Rackwood, bought eight head of purebred Jerseys as a foundation herd, built a silo and remodeled his barn according to department plans, and is getting ready for real dairy work. He is planning to build up a good milking herd.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Sold by Cartmell-Gillmann Drug Co.

Strawberry Meeting

A well attended meeting of the proposed Strawberry Growers of this vicinity was held at the courthouse last Saturday and much interest was shown in the planting of a berry crop here in the coming spring.

Among others present was H. S. Nichols, Agent for West Tennessee for the Farm Demonstration work who joined in the discussion and offered valuable suggestions for carrying on the work. He assured the meeting that an agent would be secured for next year for this county if the county makes its customary appropriation, who would be qualified to do the necessary work in berry growing and marketing, as well as carry on the work of farming, dairying, club work and other work already begun and successfully in operation the county. Such men are working in several nearby counties and it is to the work of these men that the increase in some of our nearest berry sections has been made. It had formerly been suggested that a specialty berry man be secured to give his entire time to berry culture, but it was pointed out that such a man would be needed but a small part of the year, and if the berry growers join with the dairy interests, club interests, and others a better man could be secured, and one who will carry on all this work, giving his time each in its season of most needed attention, and he would have something before him all the time.

Mr. Nichols was asked to secure a date when Prof. Keffer, Director for Tennessee of the Extension forces could come here together with a berry specialist, and others whom Prof. Keffer might bring, to address the local growers on the several phases of berry growing. This date, when selected, will be published thru these columns and it is hoped that every citizen in the county who is interested in fruit growing and diversified farming will be present.

Plans will go right ahead for the preparation of land for berries and within a few weeks a meeting will be held for the purpose of placing orders for plants to be delivered at the proper time in the late winter or spring. The secretary will get prices and have all information needed to place this order.

Since the above paragraphs were written a committee composed of H. P. Stainoack, R. B. Young and N. M. Gibson appointed at last Saturday's meeting for the purpose, went to see business men of Somerville and raised subscriptions of about \$800 to help pay the salary of a county agent next year, which added to the Government's share and to the \$1000 it is hoped that the county court will pay, will give around \$3000 to get a high class county agent, one competent to do the dairy work, strawberry work, club work, and all the other that is expected of him. Other counties are paying even more than this and they are highly pleased with the result, and it has been pointed out that the salary offered here in the past has been the reason we could get none but inexperienced men, men just beginning in the work. With the salary that can now be offered if the county gives its usual \$1000 next year a man can be secured who will be the equal of any in the counties of the country. The committee wants to raise this \$800 to \$1000 before it completes its work.

Inexpensive Way to Make Wool Mattress

A washable home made wool mattress in use for 21 years and never a moth in it. That is the kind that a Hawkins County housewife has and she says that it is one of the best mattresses that can be made—and it is not expensive at the present price of wool. It will last for years and can be washed at any time.

This interesting bit of information was discovered by Miss Mary Deadrick, home agent in Hawkins County and she obtained instructions for making such a mattress from the housewife which is here given for the benefit of other home makers.

Use 25 pounds of washed and picked wool. Get 12 yards of material for tick and 3-8 inch woven tapes. Make the tick to fit the bed, round covers slightly and sew for filling. Measure tick on wrong side into 8 inch squares. Then tack 6 inch lengths of tape to every other corner. Lay tick on table or bed, push closed end in to first row of tapes. Fill with fluffy wool to tapes and tie in bow knot. Pull second row of tapes toward you and fill with wool as before and tie tapes as in first place. Continue to fill between rows of tapes tying as you go till tick is finished.
